

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jeccm-20-92	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	The data can be shared. However, Vanderbilt University Medical Center requires a Data Use Agreement (DUA) with each investigator using the data outside our institution, even in the case of de-identified data.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	Raw de-identified data can be shared under the terms of a DUA.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Not applicable.
5	When will data availability begin?	At publication after a DUA is in place.
6	When will data availability end?	Data will be available for two years as the outcomes of COVID-19 may be changed based on novel therapies and treatments
7	To whom will you share the data?	Other medical researchers interested in COVID-19.
8	For what type of analysis or purpose?	For analysis to understand predictors of severe outcomes in COVID-19 or as a control group for another viral disease.
9	How or where can the data/documents be obtained?	Requests can be emailed to the corresponding author at erin.m.wilfong@vumc.org .
10	Any other restrictions?	The authors may weigh the risks and benefits of any request. Additionally, Vanderbilt University Medical Center requires a data use agreement prior to sharing of any data. This must be completed before any data can be transferred or shared.
